

ARLANXEO HSEQ Management POLICY

Safety is a core value and therefore our individual top responsibility. We aim for a sustainable safety culture with all employees being accountable for continuous improvement.

Personal integrity and mutual respect are fundamental principles of our corporate culture. We ensure compliance with globally accepted social and ethical standards and values.

We believe in the importance of trust, transparency and teamwork to provide top quality products and services in order to be a preferred supplier and competitive in any market environment.

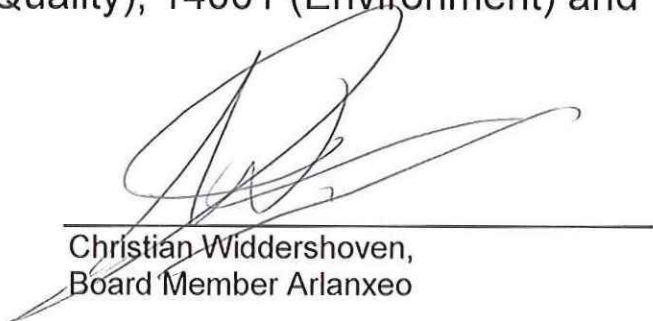

Compliance with applicable legal and company requirements is the non-negotiable foundation for all our activities.

Quality is an attitude that creates value. Our excellent reputation is determined by the quality of our products and services.

Total commitment and active participation of all employees is paramount for achieving our HSEQ objectives and ongoing improvement of our ISO 9001 (Quality), 14001 (Environment) and Energy Management Systems.
