About ARLANXEO

ARLANXEO is a world-leading synthetic rubber company with sales of around EUR 2.8 billion in 2015, about 3,800 employees and a presence at 20 production sites in nine countries.

Headquartered in Maastricht, Netherlands, the company’s core business is the development, manufacturing and marketing of synthetic high-performance rubber for use in the automotive and tire industries, the construction industry, and the oil and gas industries.

ARLANXEO was established in April 2016 as a joint venture of LANXESS - a world-leading specialty chemicals company based in Cologne, Germany - and Saudi Aramco - a major global energy and chemicals enterprise headquartered in Dhahran, Saudi Arabia. The two partners each hold a 50-percent interest in the joint venture.

The business operations of ARLANXEO are assigned to the High Performance Elastomers and Tire & Specialty Rubbers business units.

High Performance Elastomers
HPE (High Performance Elastomers), a business unit of the ARLANXEO group, offers its customers a broad portfolio of technical rubbers. As one of the leading suppliers of synthetic rubbers to the rubber-processing industry, HPE markets materials which have a wide range of industrial applications. For example, they are used as modifiers for plastic and adhesive raw materials, in gas and oil exploration and production, and in functional components for the automotive and cable industries.

Tire & Specialty Rubbers
TSR (Tire & Specialty Rubbers), a business unit of the ARLANXEO group, offers a broad portfolio of versatile rubbers primarily for applications in tire production. They are used in, for example, the inner liners (the airtight layers) of tires as well as for the tread, side walls and other tire components. Other applications include chewing gum, sports and golf balls, hoses and conveyor belts.
The name ARLANXEO

ARLANXEO is derived from the names of both partners in the joint venture, combining one syllable each of LANXESS and Saudi Aramco. The ending “EO” refers to the products and stands for elastomers. Implicit in the name are the customer orientation and reputation of both partners.

Forward-Looking Statements

This news release may contain forward-looking statements based on current assumptions and forecasts made by ARLANXEO management. Various known and unknown risks, uncertainties and other factors could lead to material differences between the actual future results, financial situation, development or performance of the company and the estimates given here.
